

UYATECH 有涯科技

Shanghai UYA Technology Co.Ltd

Upgrade Your Automation.

About UYATECH

Founded in 2017 with a group of young people from automatic handling industry. We focus on providing the most suitable and cost-effective end-of-arm tooling products all over the world.

Our standard modular-designed products are widely used in press line automation, from tandem press line to transfer press line and press-harden progress. With the reputation grows, we also take part into laser cutting automation, press brake automation, electro-painting automation.

Our core products are pneumatic clamps, magnetic grippers, suction cups, round tooling systems, work-holding products.

UYATECH will focus on automation industry, developing new products to meet your automation demands.

Founded in 2017. Shanghai

2017

Partnership with ESTUN, MISUMI, FIBRO, GIMATIC,
FIPA

Tandem Line Tooling

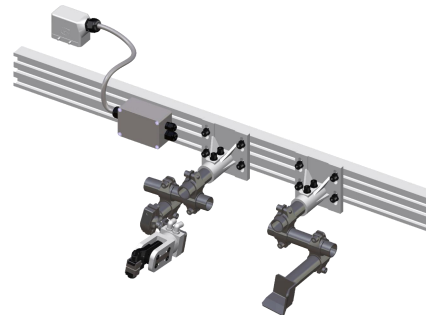

- >Fit with almost every exsited standard;
- >Proven durable suction cups;
- >Most parts are in stock.

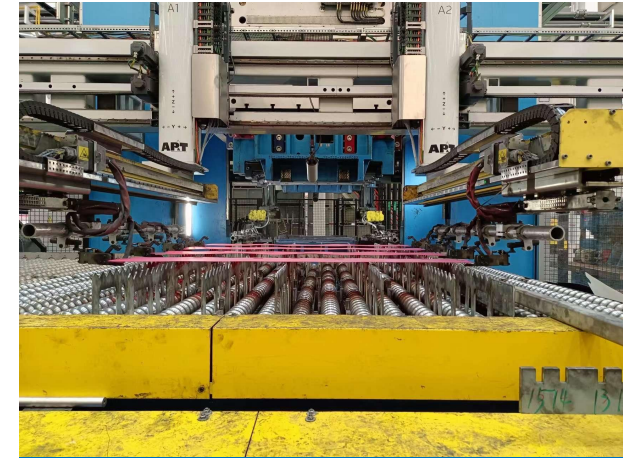

Transfer Press Gripper

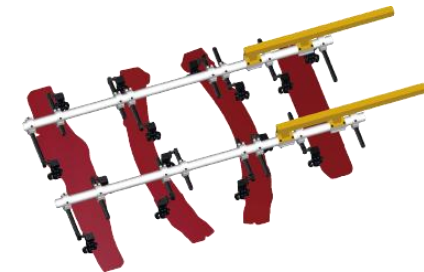

- >Ability to tailer-made;
- >Professional in pneumatic clamps;
- >Know-how experience.

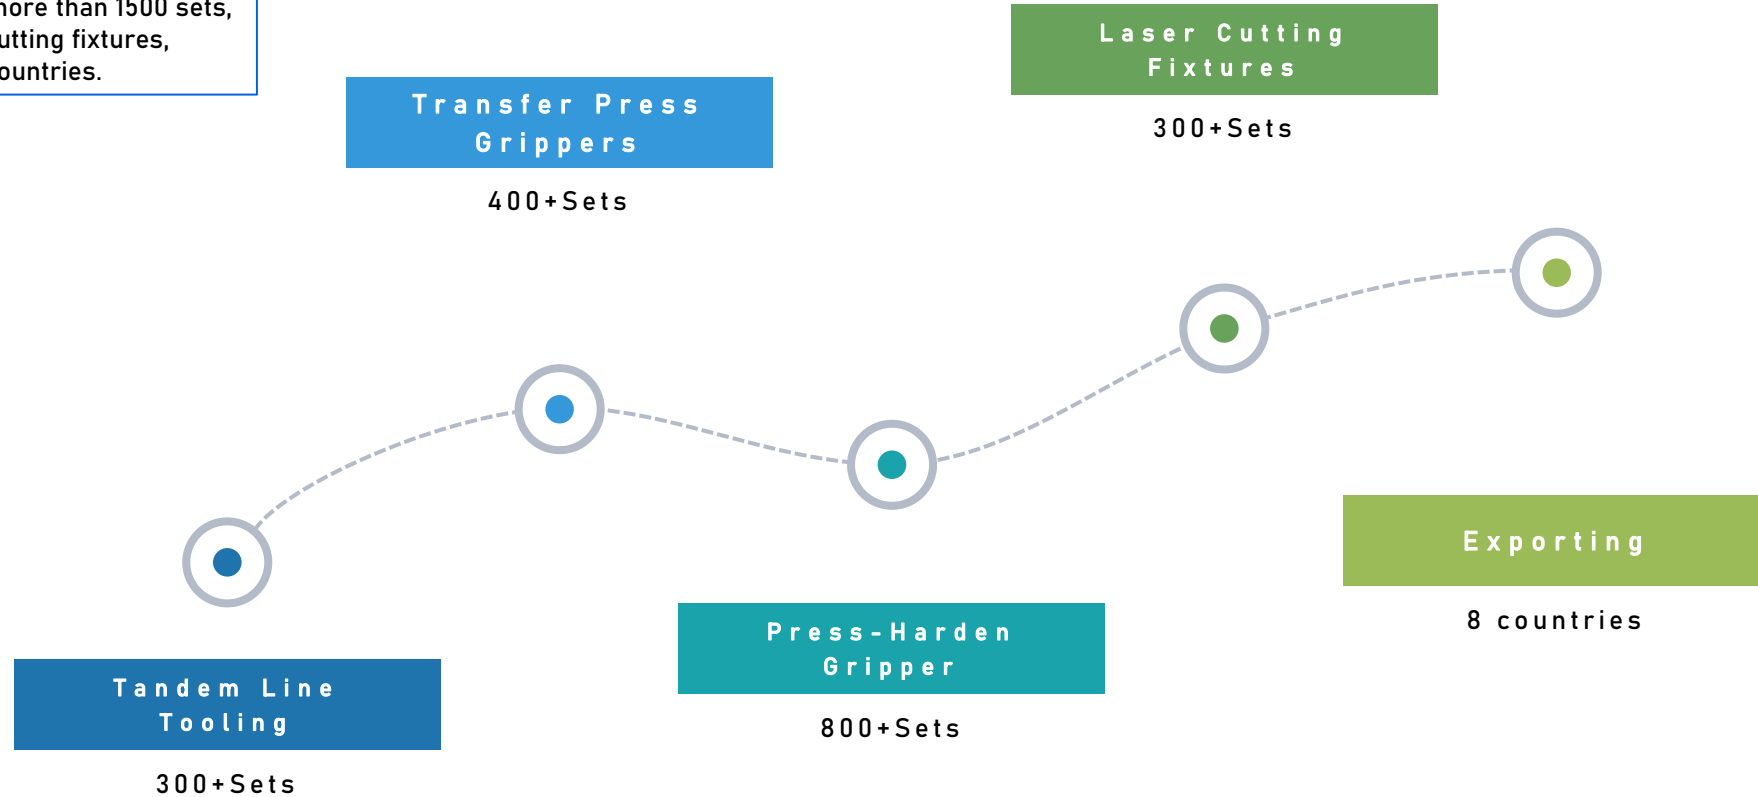

Press-Harden Gripper

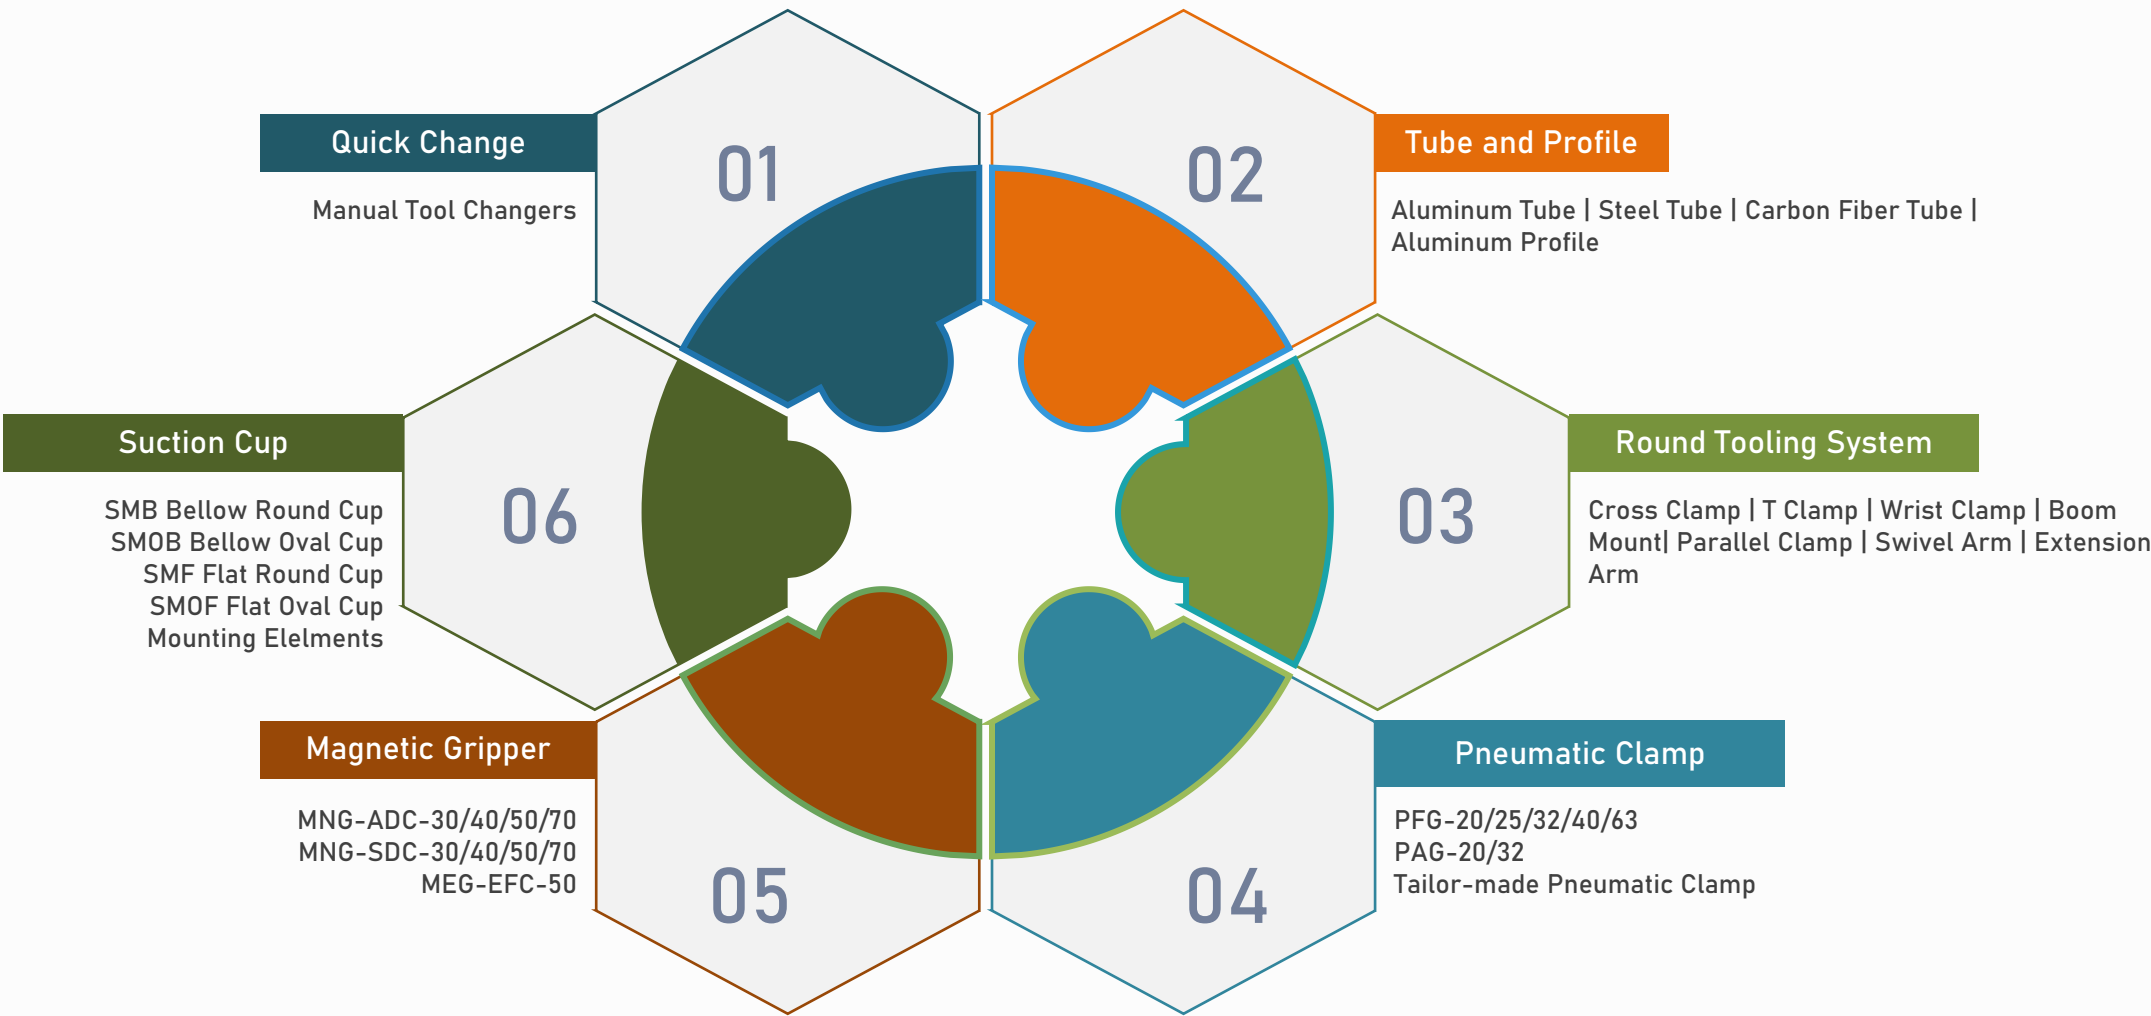

- >More than 1000+ sets delivered;
- >Profressinal in pneumatic clamps and magnetic gripper;
- >Most parts are in stock.

700+ projects are finished since started.
With press line tooling more than 1500 sets,
and 300+ sets of laser cutting fixtures,
exporting more than 8 countries.

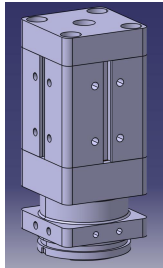

2024 New Products

01

Efficient Magnetic Gripper

2-3 times stronger than same size magnetic gripper

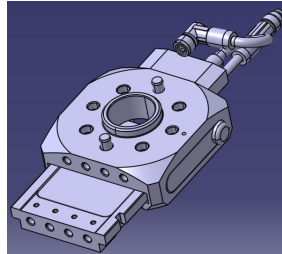

02

Quick Changer for Cobot

Dedicated for small duty handling process in cobot applications.

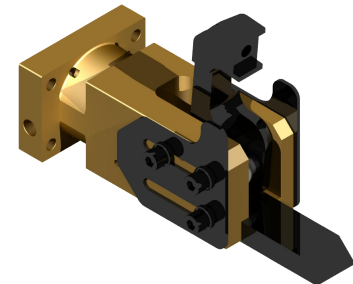

03

Pneumatic Clamp for Restrict Space

Moving jaw does not extend below the clamp, suitable for transfer press which need small clearance.

Equipments
